NOTES

PRESIDENT'S WELCOME

With the accent on the theme of "continuing education" the Annual Winter Clinic of the Academy provides an excellent opportunity for the astute dentist and staff to attend the best one-day meeting in the province and also enjoy the sights and sounds of Toronto.

Programme Chairman, Murray Wagman, has been busy for some time arranging clinics, lectures, and demonstrations of the highest calibre

to provide something of value for all branches of the profession.

Send in your registration as soon as possible and eliminate any delays on November 25th.

Participation leads to motivation and that's an essential part of continuing education!

Ronald S. Anco, B.Sc.Ph.m., D.D.S.

Avoiding Problems in Clinical Endodontics: Endodontic Emergency Treatment Avoiding Problems in Canal Preparation

Franklin S. Weine, D.D.S., M.S.D.

Dr. Weine graduated from the University of Illinois, College of Dentistry in 1957. After being in general practice for eight years, he returned to school to receive his M.S.D. from Indiana University in 1966. At present, he is Professor and Director of Postgraduate Endodontics at Loyola University, Lecturer of Endodontics and Periodontics at Northwestern University and Assistant Professor of Endodontics at Indiana University. This text book, ENDODONTIC THERAPY, is now in its second edition and is used in over thirty dental schools in Canada and the United States. Dr. Weine is a Diplomat of the American Board of Endodontics and Fellow of both the American and the International Colleges of Dentists.

Endodontic Emergency Treatment — Morning Presentation

This presentation will describe efficient & effective treatment of pulpal & periapical pain both quickly & successfully. Also, suggestions for treating patients who develop pain during the course of therapy will be described.

Avoiding Problems in Canal Preparation — Afternoon Presentation

The most important phase of endodontic treatment is the preparation of the canal to receive an inert filling material. This presentation describes the importance of apical anatomy, determination of working length, use of angled X-rays, preparation of small and/or curved canals, flaring and the use of medicaments, irrigants and temporary sealants.

Place: TERRITORIES ROOM

Time: 9:30 - 11:30 a.m.

2:30 - 4:30 p.m.

Chairman — Dr. John Pepper

Chairman — Dr. Wayne Pulver

Fixed and Removable Prosthodontics: The Dentist and the Dental Technician

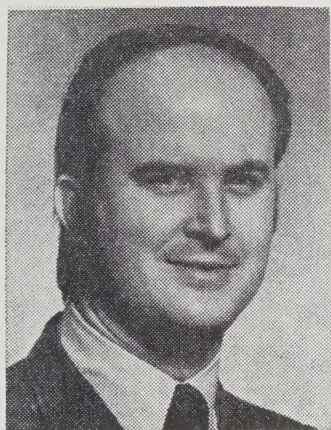

Synopsis:

The objective of this panel is to identify and underscore the important features which make for a good working relationship between the dentist and the dental laboratory technician. Brief presentations from representatives of both groups will be made and members of the audience will be invited to participate in the ensuing dialogue.

Moderators:

D.D.S., M.S., F.R.C.D.(C)

George A. Zarb, B.Ch.D. (Malta), M.Sc.

Dr. Zarb graduated at the Royal University of Malta (B.Ch.D.) in 1960; received his D.D.S. from the University of Michigan, 1963; Master of Science in Restorative Dentistry and Prosthodontics from University of Michigan (1962) and Ohio State University (1966); Fellowship in the Royal College of Dentists of Canada (1969). At present he is Professor and Chairman of Prosthodontics, Faculty of Dentistry, University of Toronto; Head, Section of Restorative Dentistry, Toronto General Hospital; Head, Division of Prosthodontics, Hospital for Sick Children Consultant to the Facial Treatment and Research Centre, Hospital for Sick Children, and Consultant in Maxillofacial Prosthodontics at the New Mount Sinai Hospital.

Place: TUDOR ROOM

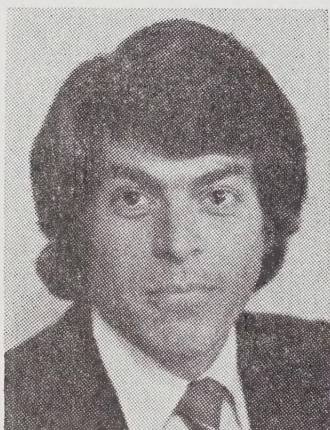

Time: 9:30 - 11:45 a.m.

Peter M. Beck, D.D.S.

Dr. Beck graduated from the University of Toronto in 1949, following which he went into private practice. Later he limited his practice to restorative dentistry. Dr. Beck is a member of the Toronto Crown and Bridge Society, a member of the Francis Vedder Society of Crown and Bridge Prosthodontics, a Founding member of the American Academy of Dental Electrosurgery and a member of the American Academy of Implant Dentistry. Dr. Beck has lectured to international groups on various dental subjects in addition to writing articles for dental and medical journals.

Henry C: Levant, D.D.S. M.ScD., F.R.C.D.(C)

Dr. Levant is a graduate from the Faculty of Dentistry, University of Toronto following which he was an Associate in private practice until 1970. He attended Graduate School, Faculty of Dentistry where he concentrated on: Major-Connective Tissue Biology, Minor-Dental Materials, and Clinical Specialty-Prosthodontics. He became a Fellow of the Royal College of Dentists of Canada in 1976. At present his practice is limited to Prosthodontics. He is an Associate in Dentistry, and Part-time Lecturer, Faculty of Dentistry, University of Toronto. He has given table clinics and lectures to annual conventions of the Ontario Dental Association, the Academy of Dentistry, local Dental Society and Fraternities, as well as the School of Graduate Studies, Faculty of Dentistry. In addition to being

the President of the Association of Prosthodontists of Ontario, Dr. Levant holds membership in North Toronto Dental Society, Toronto Academy of Dentistry, O.D.A., Canadian Dental Association, Association of Prosthodontists of Canada, Toronto Crown and Bridge Study Club and Alpha Omega Dental Fraternity. Two of Dr. Levant's publications are "Some Properties of Dental Cements", I.A.D.R. Meeting, Las Vegas, Nevada, 1972, and (Thesis) "The Cementation of Dental Implants" Faculty of Dentistry, University of Toronto (1975).

Hermann Sommer, R.D.T.

Mr. Sommer was born and educated in Germany, and is the son of a dentist. While working in the American Red Cross Dental Department he became interested in dental technology following which he attended the College of Dental Technology in Munich for four years. He has worked with some of the best dentists and dental laboratories in Germany and Switzerland. He also worked with his father on "extensive dental surgery" in the Simbach Hospital. After his arrival in Canada in 1957 Mr. Sommer worked for some of the large laboratories in Toronto. In 1964 he started Micro-Dent Laboratories Limited where he is President. He is a director of the Commercial Dental Laboratory Conference and attends conventions on an international basis.

Amedeo Zeoli, R.D.T.

Mr. Zeoli studied at the University of Rome and Bologna. Besides studying sculpture at the Fine Arts Academy he attended medical college in Italy for four years. For a period of time he attended the Faculty of Dentistry, University of Toronto. He has extensive experience in all phases of dental technology and has specialized in crown and bridge restoration and rehabilitation. He also teaches ceramics as applied to crown and bridge techniques at George Brown College. In 1974, Mr. Zeoli received a gold medal from the Governing Board of Dental Technicians in recognition of high quality work and dedication to the profession.

Practical Dental Acupuncture

Herbert Adirim, N.A., B.Sc., D.D.S.

Linda M. Rapson, M.D.

Synopsis:

Two one-hour sessions in the afternoon will be presented. The format will include a short lecture with perhaps slides, a film showing dental extractions using acupuncture, and a question and answer session. If possible, an extraction will be done during each session as well.

Biography:

Dr. Adirim, a graduate of the University of Toronto Faculty of Dentistry 1968, became keenly interested in acupuncture and its application to dentistry following his participation in an Introductory Seminar conducted by the Acupuncture Foundation of Canada in April 1975. Since that time he has attended teaching rounds at the AFC Clinic on a regular basis and has taken part in further Seminars as a demonstrator and lecturer. He has found ready acceptance of acupuncture by a good percentage of his patients and has gained a great deal of experience which he wants to share with other dentists.

Dr. Rapson graduated in Medicine from the University of Toronto in 1965, and following internship at New Mount Sinai Hospital engaged in family practice in Toronto until March 1975 when she left to work full time in the AFC Clinic and since September 1975 has held the position of Medical Director of the Foundation. Her training in acupuncture has been with the AFC primarily under Dr. Joseph Wong, the President, who has incorporated 20 years experience in acupuncture into his specialty practice of physical medicine and rehabilitation.

Place: TUDOR ROOM

Time: 2:30 - 4:30 p.m.

Time: 3:30 - 4:30 p.m.

Chairman:

Chairman — Dr. Bernard Kafka

Chairman — Dr. Perry Bender

Up the Creek Without a Bite Plate

Randy Lang, D.D.S., D. Ortho

Synopsis:

One of the biggest problems facing the general practitioner who enjoys doing orthodontics is being able to differentiate between simple malocclusions that can be treated successfully and those that are too difficult.

No one wants to discover half way through treatment that he has unfortunately chosen either the wrong appliance or an orthodontic problem that was too difficult to complete.

In order to help general practitioners enjoy doing orthodontics and avoid unforeseen orthodontic problems, Dr. Lang's presentation will cover the following points:

1. Which orthodontic problems can be treated successfully in general practice and which problems should be referred to an orthodontist for consultation.
2. The type of orthodontic appliance that can be used in general practice, including their design, type of action and adjustments.
3. How to easily incorporate orthodontics into a well run general practice and how to establish a fair fee for orthodontic treatment.

Biography:

Dr. Lang was an honours graduate from the Faculty of Dentistry, University of Toronto in 1966. After a year of general practice he returned to the University of Toronto for his graduate studies in Orthodontics. In addition to his private practice of Orthodontics in Mississauga and West Toronto, Dr. Lang is also an Associate in Dentistry with the Department of Orthodontics, University of Toronto.

He is the Orthodontic Consultant to the Registration and Licensure Committee of the R.C.D.S., the George Brown College of Applied Arts and Sciences and the Mississauga Hospital. He is also on the Editorial Board of the dental journal "Oral Health". He has presented clinics in both the United States and Canada.

Place: CONFEDERATION ROOM

Time: 9:30 - 11:30 a.m.

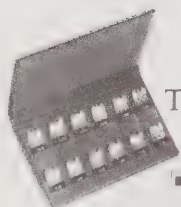

2:30 - 4:30 p.m.

Chairman — Dr. Ken Serota

Chairman — Dr. Al Wallace

Investment is what you make it

Mr. C. A. P. Leahey

Mr. Leahey received his B.A. from Sir George Williams College, followed by a course in Business Administration Practices from the University of Toronto and Chicago; Industry Courses from the Investment Dealers Association; and Industry Courses from the Canadian Securities Corporation. He is currently associated with A.E. Ames & Co. Limited, and was formerly in a consulting capacity with McLean-Hunter; Vice-President and General Manager for National Sales Incentives; Manager of Administration with W. R. Grace; Air Canada in Traffic Control and with R. L. Crain Limited in Management Information Systems Development.

Synopsis:

Investing your capital as you accumulate it and the priorities for investing throughout your business career.

The necessity of considering inflation and your personal life, both in the present and the future.

Investing and the attitude required to be successful. This will be covered in detail with emphasis on risk reward in investment policy.

Estate planning with reference to the ever-changing tax laws and financial status.

Options and how to invest conservatively and with minimum risk.

The Detection, Diagnosis, and Treatment of Oral Cancer

Ronald Lee Rubin, D.D.S.
Diplomate, American Board of Oral Surgery

Dr. Rubin graduated from the Tufts University School of Dental Medicine, Postgraduate Department of Oral Surgery in 1975. During his residency, he was granted an Oral Cancer Fellowship at the New England Medical Center where he trained in the Department of Radiotherapy and taught Oral Oncology at Tufts University. He has contributed to various professional journals, is on the oral surgery staff at the Toronto East General and Orthopaedic Hospital, and is in private practice in Toronto.

Synopsis:

The dentist, in his daily practice, is often challenged in the detection and prevention of oral cancer. This discussion will review the technique of a head and neck examination, the various clinical manifestations of oral cancer, and when, as well as how to perform a biopsy. A criteria of cancer therapy will be presented to demonstrate which lesions may be best treated via surgery, radiotherapy, or in combination. A brief description of radiotherapy is included.

Place: B.C. ROOM

Time: 9:30 - 10:30 a.m.
2:30 - 3:30 p.m.

Chairman — Dr. Les Priemer
Chairman — Dr. Gerry Solomon

Medical Emergencies in the Dental Office

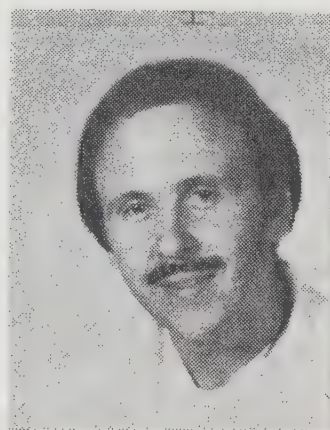

Paul Chapnick, D.D.S., F.R.C.D.(C) Oral Surgeon
Diplomate of The American Board of Oral Surgery

Synopsis:

Most systemic emergencies can be prevented, however problems may occur. A review of prevention, diagnosis and current management of the most common emergencies will be presented.

Biography:

Dr. Chapnick received his D.D.S., from the University of Toronto in 1962. After receiving his Certificate in Oral Surgery from Boston University Graduate School of Medicine, Dept. of Stomatology he interned at Harlem Hospital, New York, and was Senior Resident, Doctors Hospital, Toronto. He is a Diplomate of The American Board of Oral Surgeons, a Fellow of The Royal College of Dentists of Canada and a Fellow of The American Dental Society of Anaesthesiology. He is an Associate of The Faculty of Dentistry, Toronto, and serves as Chairman of Oral Surgery at Mount Sinai Hospital, Toronto.

Place: B.C. ROOM

Time: 10:45 - 11:45 a.m.
3:45 - 4:45 p.m.

Chairman — Dr. Ron Agar
Chairman — Dr. Ken Pearl

Modern Treatment Techniques for Preserving and Maintaining Primary Teeth from Eruption to Normal Exfoliation

Frank Pulver, D.D.S., M.Sc.

Synopsis:

Operative techniques in primary teeth utilizing rubber dam will be discussed. These techniques include: basic cavity design, methods of vital and non-vital pulpal therapy, and methods of placing properly adapted and contoured stainless steel and polycarbonate crowns.

Biography:

Dr. Pulver obtained his D.D.S. degree from the University of Toronto, Faculty of Dentistry in 1958 and his Masters of Science in 1962 from the University of Michigan — W.K. Kellogg Institute. He became a Fellow in the Royal College of Dentists of Canada in 1967. He has held the following appointments: Associate in Dentistry, Faculty of Dentistry, University of Toronto Department of Paedodontics, Undergraduate and Graduate Divisions; Active Staff, Mount Sinai Hospital, Dental Department, Toronto, in charge of general anaesthesia for retarded young adults; Staff, Hospital for Sick Children, Dental Department; appointments: Associate in Dentistry, Faculty of Dentists of Canada; and Dental Consultant, Canadian Standards Association, Subcommittee on Protective Hockey Equipment. Dr. Pulver has been in general practice of Dentistry since 1958 and since 1962 has limited his private practice to Paedodontics.

He is a member of various societies including Canadian Academy of Paedodontics, American Academy of Paedodontics (Fellow), Canadian Dental Association, Canadian Society of Dentistry for Children (Ontario Chapter), Ontario Dental Association, Ontario Society of Paedodontists. Dr. Pulver has several publications to his credit.

Place: QUEBEC ROOM

Time: 9:30 - 10:30 a.m.

2:30 - 3:30 p.m.

Chairman — Dr. Bernie Yaphe

Chairman — Dr. Charles Balaban

The Precision Attachment - Asset or Liability

E. J. Rajczak, D.D.S.

Synopsis:

Opinion is divided as to the place precision attachments should occupy in the field of periodontal prosthesis. This presentation will review some of the factors that contribute to or militate against successful precision attached partial dentures. Correct attachment technique combined with proper case design, sound saddle impression principles and physiologically correct occlusion and articulation, are all vital in making the precision attachment an important factor in preserving and sustaining abutment teeth rather than contributing to their loss.

Biography:

Dr. Rajczak is a 1956 graduate of the University of Toronto, and has practised in Hamilton, Ontario since that time. He is a guest Instructor in the post-graduate Occlusion and Occlusal Adjustment Course at the Faculty of Dentistry, University of Western Ontario, and served as Director of the Hamilton General Hospital Dental Internship Training Programme. He is primarily a full time general practitioner, whose principal practice emphasis is in the field of crown and bridge prosthodontics, and his lectures are concerned mainly with the how to do it aspect of daily crown and bridge practice. He has lectured to study groups and dental societies in both Canada and the United States. He is a member of the American Academy of Restorative Dentistry, the American Academy of Crown and Bridge Prosthodontics, and is a past president of the Canadian Academy of Restorative Dentistry. He has lectured in the post graduate divisions at Temple University, the University of Buffalo, the University of Nebraska, and Marquette University. Articles published: An Effective Recall System — Oral Health, November, 1967 and Trouble Shooting With Pins — Dental Clinics of North America, July 1971.

Place: SASKATCHEWAN ROOM

Time: 9:15 - 10:30 a.m.

2:30 - 3:30 p.m.

Chairman — Dr. E. Jurczak

Chairman — Dr. Mark Panzer

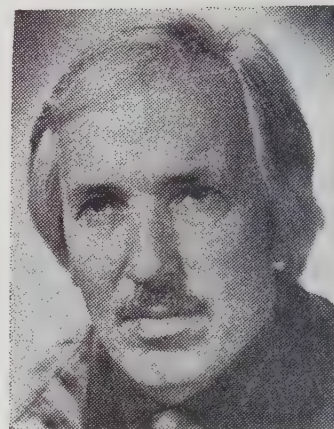

The Effective Use of Auxiliaries in Dental Practice

D. G. Coburn, D.D.S.

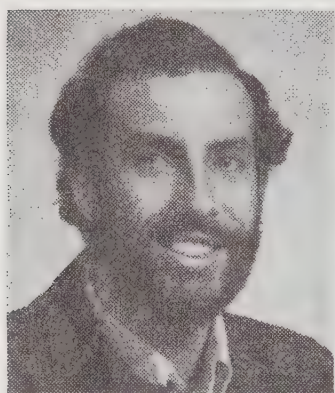

Synopsis:

Dr. Coburn graduated from the Faculty of Dentistry, University of Toronto in 1951, and worked part time as a consultant in crown and bridge, and as a lecturer in ceramics and practice administration at this dental faculty.

He has lectured to the American Dental Association, the Canadian Dental Association, the American Academy of Dental Practice Administration and as well to other dental societies, study clubs and Universities.

Dr. Coburn is an associate editor of Oral Health (practice management) and has a continuing interest in work methods and environmental design, and is in private practice in Hamilton, Ontario.

Larry M. Levin, D.D.S.

Dr. Levin graduated from the Faculty of Dentistry, University of Toronto, in 1969. He has lectured to both undergraduate and postgraduate classes at the University of Western Ontario. He has lectured to Psychiatrists and staff at the Hamilton Psychiatric Hospital. He has also lectured to various groups of Ontario dentists on practice management. He has presented table clinics to the ODA and CDA.

Dr. Levin is on staff at McMaster University Medical Centre. He has been involved as a research consultant to Cox Systems Ltd., since 1969.

He is a member of the American Society for Preventive Dentistry and many other dental associations.

Dr. Levin is currently engaged in private practice in Hamilton, Ontario.

This program will show some details of auxiliary utilization in the following areas:

1. Patient reception
2. Appointment book control
3. Preventive programme
4. Treatment
5. Recall programme

Assistants are encouraged to attend with their dentist.

Place: MANITOBA ROOM

Time: 10:45 - 11:45 a.m.

3:45 - 4:45 p.m.

Chairman — Dr. Ron Bell

Chairman — Dr. Wally Pelech

A Periodontist Looks at Current Concepts in Fixed Partial Prosthetics

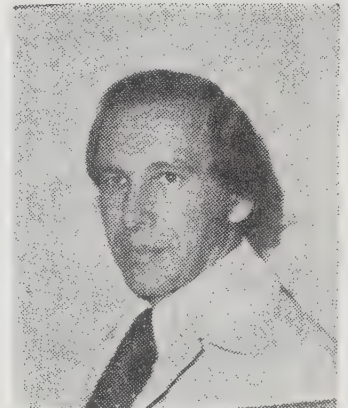

Harvey I. Taub, D.D.S., M.Sc.D., F.R.C.S.(C)

Synopsis:

An illustrated discussion of the recent thinking revolving around fixed partial tooth replacement concentrating on the following areas: realistic aims of splinting; temporization techniques; sequencing of treatment; principals of crown form and occlusion.

Biography:

Dr. Taub graduated from the University of Toronto, Faculty of Dentistry in 1963, receiving a D.D.S., and from Boston University, School of Graduate Dentistry in 1966 receiving a certificate in Periodontics and an M.Sc.D. He is a Fellow of the Royal College of Dentists of Canada (Periodontics). Dr. Taub has been in private practice of Periodontics in Toronto since 1966 and is an associate in Dentistry in the Department of Periodontics at the University of Toronto. He is an active staff member of the Dental Department, Doctors Hospital, Toronto and is currently President of the Ontario Society of Periodontists.

Place: QUEBEC ROOM

Time: 10:45 - 11:45 a.m.

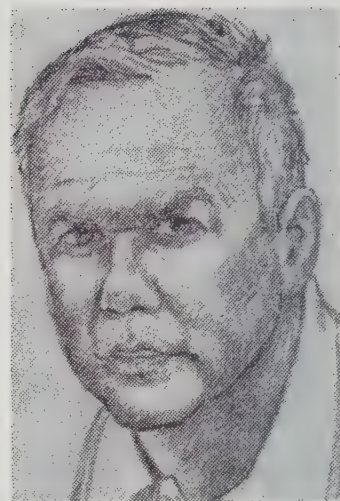

3:45 - 4:45 p.m.

Chairman — Dr. Ed. Friedberg

Chairman — Dr. Eric VanGorder

Photography at Work and Play

George E. Sparrow, D.D.S., Toronto

Synopsis:

This presentation will show the similarities between photography in the office and photography for fun, and will include:—

1. Standardizing your technique
2. A working technique for intra — and extra-oral photographs, and copying documents, slides and X-rays.
3. Practical examples of points in #2, with slides to demonstrate
4. Photography for fun

Biography:

Dr. Sparrow graduated with a D.D.S. degree from the University of Toronto. He is a member of the Photographic Society of America, and Nature Salon Chairman of the Toronto Camera Club. The awards he has achieved in this field include the Karsh Trophy, K. B. Jackson Trophy, MacGregor Trophy, and the Toronto Camera Club Silver Medal (Pictorial).

Place: SASKATCHEWAN ROOM

Time: 10:45 - 11:45 a.m.

3:45 - 4:45 p.m.

Chairman — Hal Kershen

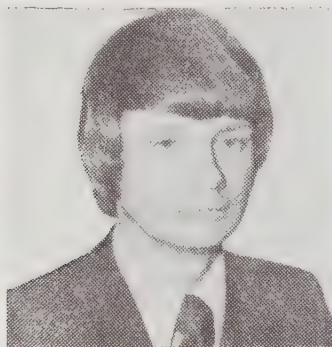

Chairman — Brian Kotzer

The Role of Retention in Removable Partial Dentures

Bruce S. Graham, D.D.S., M.S. (Ohio)

Synopsis:

The majority of the removable partial dentures fabricated for patients in North America are over-retained. All too frequently, the retentive components of the removable partial denture are arbitrarily designed by following widely-promoted "techniques". These techniques are often not supported by long-term clinical observations. This presentation will seek to clarify the clinical significance and outline a practical methodology of removable partial denture retention.

Biography:

Dr. Graham is an Associate in Dentistry in the Department of Removable Prosthodontics of the Faculty of Dentistry, University of Toronto, and a Member of the Active Staff of the Dental Department and Facial Treatment and Research Centre of the Hospital for Sick Children. He is engaged in part-time clinical practice restricted to Prosthodontics. He graduated from the Faculty of Dentistry, University of Toronto and received a M.S. degree (Prosthodontics) from Ohio State University.

Place: MANITOBA ROOM

Time: 9:30 - 10:30 a.m.

2:30 - 3:30 p.m.

MAY 8-11, 1977
THE SHERATON CENTRE
(formerly Four Seasons Sheraton)

MRS. R. LUNDY — 231-9468

The Ladies' Auxiliary to the Academy of Dentistry will collect scrap Amalgam and scrap gold in February, 1977. If you have not been contacted and you wish to contribute to this worthy cause, please call. Anyone from out of town attending the Winter Clinic and who wishes to contribute, may bring their contributions at that time.

SCRAP AMALGAM DRIVE

The Winter Clinic Committee is pleased to announce that the Academy of General Dentistry accepts the Toronto Academy of Dentistry Winter Clinic for accreditation.
The Toronto Academy has been assigned the number 440.
Please ask at the main desk where Academy members may have their course record forms completed.

JAN 1 6 1978
